THE MORE WE KNOW, THE  
MORE WE CAN DO

## Uzhhorod National University

Uzhhorod National University (UzhNU) is a powerful creator of intellectual, educational, scientific and cultural environment in Zakarpattia. Situated in the westernmost part of Ukraine and bordering the countries such as Poland, Slovakia, Hungary and Romania, the oblast, historically, holds a unique position in view of its cultural, linguistic, religious, and traditional diversity. Hence, Uzhhorod National University has embraced the challenge of the responsibility to foster inclusivity by promoting intercultural dialogue, in particular, via educating the ethnically diverse student body.

Uzhhorod National University opened its doors in 1945, making it the first higher educational institution in Zakarpattia oblast. UzhNU initially comprised 4 faculties. The university has come a long way and, at present, it consists of 19 faculties, each having its own set of departments, which provide a huge variety of study fields and specializations at all three levels of higher education (bachelor, master, doctoral). A wide array of programs cover almost every aspect of modern academia, from humanities, social sciences to natural sciences, engineering, medicine. UzhNU also encompasses the Natural Sciences and Humanities College, 3 educational research institutes, different institutes, centers and laboratories, the Scientific Library, the Botanical Garden and 4 museums. Nurturing connections among these, the university favours interdisciplinarity.

The university comes in first place in terms of an institution with the highest number of personnel in Zakarpattia oblast, above 1500 academic staff members are employed in it. Due to them, both depth and breadth of skill are brought across all disciplines. Contemporary as well as future cohorts of experts are being shaped by their unparalleled commitment to quality instruction, which enables them to become locally, nationally and globally useful citizens.

## INTERNATIONAL COOPERATION

Uzhhorod National University is home to near 17 000 students from all walks of life and all corners of Ukraine. The secure environment, high quality of teaching, reasonable tuition fees, low living costs make the university a popular destination for international students whose number currently reaches over 1000.

The scientific school of Uzhhorod National University has been evolving and accumulating achievements, hand in hand with pursuing its third mission, inter alia, through craving for cooperation rather than competition. Sharing a liberal and humanistic perspective, generating and adhering to the policies of resilience and sustainability, the university authorities help UzhNU to honorably keep the brand of one of the leading universities of Ukraine.

Uzhhorod National University is one of classical universities of Ukraine that holds the highest accreditation level. Its strategic aim is to obtain the status of a research university. Uzhhorod National University is a member of the following international organizations:

- Magna Charta Universitatum
- European University Association
- Danube Rectors' Conference
- UK-Ukraine Twinning Partnerships
- Eastern Partnership University Cluster

Since 2024 UzhNU has been participating in the University Global Coalition, helping to advance the United Nations' Sustainable Development Goals in partnership with higher education institutions around the world.

UzhNU actively cooperates with more than 140 universities in 31 countries worldwide: Oregon State University (USA), University of Central Lancashire (UK), Charles University in Prague (Czech Republic), Pavol Jozef Safarik University in Kosice (Slovak Republic), Pomeranian University in Slupsk (Poland), Babes-Bolyai University of Cluj-Napoca (Romania), University of Debrecen (Hungary), University of Foggia (Italy), Hochschule Darmstadt University of Applied Sciences (Germany), University of Zagreb (Croatia), University of Azuay (Ecuador) etc.

It is for the first time that Uzhhorod National University was included in The Times Higher Education World University Rankings 2024, currently being in the 12th position among the best Ukrainian universities and the 1501st among the best universities of the world. UzhNU holds the 81st place in QS World University Rankings: Eastern Europe 2024, the 8th place according to Webometrics Ranking. In the international ranking U-Multirank, Uzhhorod National University takes the 18th position among 91 best universities of Ukraine. UzhNU occupies the 9th place among 17 Ukrainian universities based on the Green Metric World University Rankings.

The top-priority tasks Uzhhorod National University pursues in fostering international relations are: to increase the level of internationalization of the university, with the emphasis on internationalization-at-home activities in order to enhance accessibility to international experience for a wide range of students and academic staff, in particular, through creating opportunities to be engaged in physical and virtual mobility; to apply for grants aimed at digitalizing and modernizing the university; to promote the 'Green' and Inclusive Education in the region.

Within the framework of Erasmus+ programs, in particular, KA131, KA171, implying the physical mobility of higher education students and staff, SU 'Uzhhorod National University' currently collaborates with universities from Romania, Croatia, Italy, Poland, Lithuania, the Czech Republic, Slovakia, Hungary, Sweden, Germany etcetera.

The history of the Faculty dates back to September 1950, when 25 applicants became students of the Mathematics Department of the Faculty of Physics and Mathematics for the first time. On 1 September 1966, the Faculty of Mathematics became a separate subdivision of the university. And in 2020, as a result of rebranding, the faculty received the updated name “Faculty of Mathematics and Digital Technologies”, which corresponds to the content of the new educational programmes introduced in recent years at the faculty (“Computer and Business Mathematics”, “Artificial Intelligence Systems”, “Mathematics. Informatics, System Analysis, Data Science and Intelligent Solutions, Data Processing Technologies, etc.)

The faculty team is a great combination of the experience of doctors and candidates of sciences and the enthusiasm of young scientists and teachers. Today, the Faculty of Mathematics and Digital Technologies has the largest number of computer labs equipped with modern computer technology and a large number of classrooms equipped with projectors, which allows teachers and students to conduct classes at a level that meets the requirements of modern education. The faculty has signed agreements and memoranda of cooperation with a large number of IT companies and other institutions in the region, which allow students to acquire practical skills and deepen their knowledge in a particular field. As a result, graduates of the Faculty of Mathematics and Digital Technologies are successfully employed as specialists in the field of IT (software developers, data analysts, project managers, software testers, etc.) and in the scientific and educational sphere (mathematical analysts, teachers of mathematics and computer science, etc.).

The requirement of our time is constant self-improvement, so our task is to educate everyone throughout their lives and guide them to where knowledge can be found. You need to learn every day, using new innovative technologies. This is exactly what the Faculty of Postgraduate Education and Pre-University Training, which was established on 08 February 2000, does.

The educational work at the faculty can be divided into two areas: postgraduate education of healthcare professionals and pre-university training of applicants.

First of all, the unit provides postgraduate education for doctors of the region, Ukraine, and foreign doctors. The faculty provides training and advanced training (internships, specialisation, internships and continuing professional development courses) in 32 medical specialities. Every year, more than 2.5 thousand healthcare professionals improve their skills at the School.

A significant amount of work at the faculty is devoted to preparing students, including foreign nationals, for admission to higher education institutions.

The level of work of the faculty is also evidenced by close cooperation with leading universities in Europe and North America: Jagiellonian (Poland), Portland (USA), Budapest (Hungary), Debrecen (Hungary), Magdeburg (Germany) universities and the Medical Academy of Silesia (Poland).
